

Mighty Gasket Black

Replaces Conventional Gaskets • Leakproof • Resists Pressure • Permently Flexible

Product Description

Mighty Gasket Black is a ready-to-use 100% RTV, one component acetoxy silicone sealant which cures to a tough, rubbery solid when exposed to moisture in the air at room temperature. It has superior temperature resistance and outstanding weatherability. It is used for general glazing and sealing applications.

Key Features

- Leakproof, strong, extremely durable and permanently flexible
- Fully cured Mighty Gasket Black is Heat Resistant for extended periods at temperatures up to 232°C and for shorter periods up to 260°C.
- Replaces and outperforms conventional rubber, cork, paper felt and asbestos gaskets
- Adheres to clean metal, glass, plastic surfaces, silicone rubber, ceramic, granite and most types of woods
- Resistant to water, oil, battery acid, transmission fluid and other chemicals
- High tolerance to vibration and pressure
- Resistant to aging.
- Fills all voids and spaces

Product Specifications / Typical Properties / Physical Characteristics

Table 1: Physical Properties (Uncured)

Parameters	Results
Appearance	Black Thixotropic Paste
Odor	Acetoxy
Tack Free Time @ 25-33°C, mins	Minimum 7 minutes
Slump, mm	Nil
Cure Thru Time	24 hours
Specific Gravity	0.99-1.04
Extrusion Rate	Minimum of 200 g/min

Table 2: Physical Properties (Cured)

Parameters	Results
Hardness, Shore A	Minimum 15
Elongation, %	Approximately 220%
Tensile Strength, MPa	Approximately 1.4 MPa
Cohesive Failure, Glass	100%

Applications

- Used on small engines (cars and motorcycles)
- Radiators with a temperature that reaches 260°C
- Motorcycle cylinder and valve covers

Application Procedure

Surface Preparation: Thoroughly clean and degrease metal and plastic surfaces, then rinse all surfaces, except plastic, with acetone. Rubber surfaces should be roughened with sandpaper, then wiped with acetone. Follow the precautions given on solvent container label.

Method:

1. Remove cap and puncture tube membrane with the cap's pin.
2. Insert nozzle (cut tip for desired bead size) if available.
3. Apply Mighty Gasket Black to the prepared surface in a uniform bead thickness in less than 5 minutes. In cases where Mighty Gasket Black is used between two surfaces, put the second surface in place using enough pressure to displace the air. Let the unit stand undisturbed at room temperature to cure.
4. Tool off excess sealant.
5. Wipe sealant off the nozzle or tube and put on the cap tightly.
6. Store tube away from direct sunlight or sources of heat, water and other chemicals

Note: The cure progresses inward from the surface. The sealant forms a tack skin free at a minimum of 7 minutes at room temperature. Tooling is not practical after this skin begins forming and should be completed in less than 5 minutes from application, even though this may require alternate periods of applying and tooling. Likewise, if masking tape has been used to mark off the area, it should be removed before the tack-free skin forms.

Packaging

15g, 30g and 85g tubes in blister packs

Storage

Store in a well-ventilated place.

Shelf Life:

18 months

Health and Safety Precautions

Caution

Sealant releases acetic acid during cure. Direct contact of uncured Mighty Gasket Black irritates eyes and may irritate skin. Overexposure to vapour may irritate eyes, nose and throat. Avoid eye and skin contact. Use with adequate ventilation. Do not handle contact lenses with sealant on hands.

In case of eye contact: Flush eyes with water for 15 minutes. Then seek medical attention.

In case of skin contact: Remove from skin and flush with water

KEEP OUT OF REACH OF CHILDREN.

Warranty and Disclaimers

Unless an additional warranty is specifically stated on the applicable product packaging or product literature, Pioneer warrants that each Pioneer product conforms with the applicable Pioneer product specification at the time of shipment, and when properly used and maintained in accordance with Pioneer's current published Technical Data

Sheet (TDS), will serve the purpose for which it is intended. The recommendations and statements in Pioneer's TDS are based on good building practice but are not, by any means, an exhaustive statement of all relevant information. Pioneer shall not be liable for the recommendations in its TDS and the performance of the relevant Product. Pioneer shall also not be liable for any claims, damages or defects arising from, or in any way attributable to poor workmanship, incorrect design or detailing, use of the Pioneer product in unsuitable conditions, and force majeure.

Pioneer MAKES NO OTHER WARRANTIES, CONDITIONS OR REPRESENTATIONS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR ANY IMPLIED WARRANTY OR CONDITION ARISING OUT OF A COURSE OF DEALING, CUSTOMER OR USAGE OF TRADE. If the Pioneer product does not conform to this warranty, then the sole and exclusive remedy is, at Pioneer's option, the replacement of the Pioneer product or refund of the purchase price.

Limited Liability

Except where prohibited by law, Pioneer will not be liable for any loss or damage arising from the use or application of the Pioneer product, whether direct, indirect, special, incidental or consequential, regardless of the legal theory asserted, including warranty, contract, negligence or strict liability.
